The sixth MCI group Project client meeting will be held in room at 3.15 pm on Tuesday 11April 2017

Agenda

Chair: Neelam Lakshmana

Secretary: Pavitterjeet Sidhu

1 Apologies

None.

2 Presentation

None.

2.1 Functional requirements and Presentations in Last Meeting

Discussion on first milestone which were delivered on last week on the GitHub. Presenting demo of application interface to show connectivity with database.

2.2 Problems and solutions

Initially we had problem with remote devices connecting to databases on WAMP server. Then after searching on internet source for troubleshooting this problem, we got the solution on the stack overflow like we need to enable the "Allow the connection". We changed in settings and it started connecting remote devices.

3 Requirements Elicitation

Functional requirements shall be discussed for the Application

3.1 Create a database to store customer's information.

3.2 Interface for businesses which allows them to log in and post deals.

3.3 Create a database for businesses and their followers.

3.4 Connect the different databases with appropriate interfaces.

3.5 Create a new page which will display the list of all the available businesses.

3.6 An admin page to manage the customers and businesses information.

4 Other Issues

Questions for Second milestone.

Note: Next meeting will be held on 18th April 2017
